SUMMARY

Software QA tester with almost 4 years of experience in user acceptance, functional, regression and end-to-end testing for insurance, retail, e-commerce and business systems. I write clear test cases traced to requirements, report defects with evidence, and automate key checks with Playwright and TypeScript in GitHub Actions.

WORK EXPERIENCE

QA Officer · PJ Lhuillier, Inc. Jun 2026 – Oct 2026

- Tested an inventory forecasting and ordering system through user acceptance testing (UAT).
- Wrote and executed test cases traced to requirements, and kept the defect log.
- Built Playwright end-to-end tests for key user flows.
- Tested role-based access, so each user role can see and do only what it should.
- Checked forecast and order data in the database with SQL.

Tools: Playwright, SQL

Junior User Acceptance Tester · Nityo Infotech (client: BPI-Philam Life), Alabang, Muntinlupa Jan 2025 – Feb 2026

- End-to-end and functional testing.
- Created and executed test cases.
- Documented and reported bugs and defects.
- Coordinated with developers on fixes.

Tools: CICS (Customer Information Control System), user management system, Microsoft 365

Software Quality Assurance · OptimizeX/Primeview, Alabang, Muntinlupa Aug 2023 – Dec 2024

- End-to-end testing of websites on test and live sites.
- Functional, compatibility, responsive and cross-browser testing.
- Daily QA monitoring and reporting.
- Daily scrum meetings; coordinated with developers.

Tools: WordPress, Shopify, LambdaTest, Zoho BugTracker

Software QA Analyst, Manual (Level 2) · Seven Seven Global Services Inc., Pasig City Apr 2022 – Nov 2022

- Created test cases based on user stories.
- Functional and regression testing in UAT and production.
- Worked in an Agile team: daily stand-up and scrum meetings, coordinating with developers.

Tools: Jira, Postman, the client's internal tools

Quality Assurance Tester · Q2 HR Solutions, Santa Rosa, Laguna Oct 2021 – Dec 2021

- Documented and executed test cases.
- Documented bugs and issues; supported tasks on the production line.

Tools: Linux, spreadsheets

- Desktop and helpdesk support, ticket management and server maintenance.

Intern · TESDA Complex, Taguig City Apr 2017 – Jun 2017

- Maintained, troubleshoot and configured computer hardware, software, networks and peripherals.

PROJECT

mirou matcha · website and QA case study

2026

- Built and published an ordering website for a home-based matcha business:
dionanthonyflores-prog.github.io/mirou-matcha
- Wrote a test plan and 54 automated Playwright test cases (TypeScript) traced to 16 requirements, run on desktop, Android and iPhone.
- The tests run in GitHub Actions on every update; the site is only published if all of them pass.
- Found, fixed and documented 5 real bugs with before/after evidence: [QA case study](#)
